Git

ABOUT

I am in search of my first work experience in the IT field, I am interested in being part of an agile team, which allows me to enhance my skills as a developer that I have been exploring in a self-taught way.

EDUCATION

Full Stack Developer

Henry Bootcamp | 2021 - 2022

Systems engineering

Universidad Tecnologica Nacional | 2019 - 2025

Certificate in Backend Node.js

Udemy | 2021

PERSONAL PROJECTS

Weather App

This is a SPA web application that I developed in module 2 of the soyHenry bootcamp to improve my skills in React, Redux, API'S and styled-components. This allows you to find out about the climate of different cities in the world. [Link App](#)

Week Planner

This web application in React allows you to organize tasks for a week. [Link App](#)

Gifs App

This app allows searching and displaying gifs by consuming an API and unit tests were performed. [Link App](#)
